MAP HISTORY

The 1:250,000 Geobasical Series, a new publication for general use, has been compiled from the earlier 1:500,000 scale of published maps on the scale of 1:250,000 and 1:500,000. The production of this series represents an update of the geobasical series compiled by the Department of Geological Survey, NGSA.

Scale: 1:250,000. Based on the latest available topographic maps, including maps of the Department of Geological Survey, NGSA.

 PUBLISHED UNDER THE AUTHORITY OF
 THE FEDERAL GOVERNMENT OF NIGERIA
 Professor Sivas Muluwa
 Director General
 Nigerian Geological Survey Agency
